

Industrial Electronic Service Capability Statement

Company

Industrial Electronic Service, LLC (IES) is an Ohio-based company founded in 1967. Its manufacturing facility is located in Carlisle, Ohio.

Began as a one-person audio-visual and electronics repair firm, this company has become one of the major U.S. manufacturers and installers of high-quality digital clocks, timers, counters, and custom displays. We routinely custom-design and install our products in armed services bases, hospitals, educational institutions, and manufacturing plants.

Company Principals

Pete Staffan, President, has more than 25 years with IES, beginning as a technician.

Jim Staffan, Director of Engineering and Manufacturing, has secured patents for the firm using his electronics expertise, and is responsible for custom electronics design solutions.

Paul Staffan, Director of Sales and Marketing, holds an EE degree from Wright State University, and uses that in-depth knowledge of electronics to offer customers turnkey electronics systems.

Key Products

IES, LLC, manufactures and distributes industrial-strength clocks, timers, counters, and displays. We are seasoned distributors of Daktronics scoreboards and message centers.

In addition, IES offers Adaptive Micro Systems indoor and outdoor electronic message centers.
