### Customer Service

*All of us here at IES take our customer satisfaction seriously. Please don't hesitate to call Paul or Teresa if you have any questions or problems concerning past or present equipment or service purchases from IES.*

## DC-302 Play Clock

Industrial Electronic Service is proud to announce the new completely portable DC-302 Play Clock. This Play Clock is completely portable with a rugged mobile frame that can be pulled by a golf cart or Gator. This display comes complete with a rechargeable battery that has an average run time of around 8 hours. Wireless controls make this display easy to operate from field level or from the stands. Call for more information and pricing.

## Scorers Tables

Check out the newest technology available in Scorers Tables.

Daktronics offers everything from basic scorers tables with static advertising panels to scorers tables with vibrant full color video boards.

Daktronics has a scorers table for every budget. Give Teresa or Paul a call today for more detailed information.

## SCOREBOARD MAINTENANCE

Call us now and schedule an appointment to have your Football scoreboard checked out for the busy fall sports season.

We service all manufacturers scoreboards. We keep spare parts on hand so that we can fix your equipment quickly to get you back up and running.

Don't wait until the last minute. We all know how time flies by.

Call Pete or Chris today to schedule an appointment in late July or early August.

## SPORTS MARKETING

Are you looking for a way to make your life a little easier. IES is proud to introduce our new Sports Marketing Department. Paul and Teresa can help you get NEW State of the Art equipment by approaching sponsors to sell new ad space or help you update the ad space you currently have. Your time is very valuable so let us help you out.

Give Paul or Teresa a call today for more information and ideas on how you can generate revenue and update your equipment.

# BASKETBALL SCOREBOARDS

Are you ready for the Fall sports season. Volleyball, basketball and wrestling.

Check out our full line of multi-sport scoreboards. Upgrade your older scoreboards to new energy efficient LED scoreboards.

Did you know that the average half life of a LED is approximately ten years.

The new LED scoreboards come with a five year parts warranty which makes maintenance on these scoreboards virtually non-existent.

Call Paul or Teresa today for more information and pricing.

Don't forget the LED message center for advertising and sports announcements.

IES carries a full line of indoor message centers to compliment your new scoreboards.

## Don't Forget About Soccer Or Baseball/Softball

Daktronics makes all styles and sizes of soccer, baseball and softball scoreboards.

Sizes range from 9' in width all the way up to 36' in width for an inning by inning baseball scoreboard.

Give Paul or Teresa a call for more information, pricing and drawings.

Don't forget we can help you with the advertising as well.

All of the new scoreboards come with state of the art, energy efficient LED technology.

Cut your energy and maintenance costs in half. No more changing of light bulbs and with a five year parts warranty, no worries at all.

## AQUATIC SCORING

Daktronics has many scoring systems available for all of your aquatic scoring needs. The SW-2216 Multi-Sport scoreboard is pictured on the right. This board displays LANE, PLACE and TIME. There are also captions available for Diving and

Water Polo.

Daktronics also has available Touch Pads that are compatible with other manufacturers systems by using an interface module.

Don't forget to check out the Horn Start systems. The OmniSport

HS-200 is a horn start and public address system with a recall disable feature for the "one start" rule in swimming. This unit operates on a battery for over 15 hours of normal use. The convenient tripod is optional. Call for more details.

## ***DC-Digital GPS -Analog Clock***

DC-Digital is proud to introduce our wireless analog clock system. The clocks are battery operated and are completely wireless.

Installation is economical and simple.

The clocks synchronize with the buildings master clock system using a secure channel wireless radio system.

The wireless clocks are available in 12" and 15" dials and are accurate to within +/- 1 second a year.

The clock is updated 6 times a day to maintain accurate time keeping. during Daylight Savings Time and power failure, accurate time is automatically maintained.

Call today for more information and pricing.

## ***DC-Digital LED System Clocks***

Are all of the clocks in your building on a different time.

DC-Digital system clocks are the solution for you. These clocks are extremely accurate, easy to read and our DC-25AL clocks can also display small words.

These displays can be programmed by using our EZ-Time software.

EZ-Time Software runs in the background on your PC and keeps all of your clocks updated with your network time.

Call today and set up an appointment for a free on-site survey.

Let us show you how DC-Digital clocks can keep your whole district on-time.

## **Indoor LED Signs**

We are your source for indoor LED displays. Are you looking for a way to communicate quickly with your student body and staff. Alpha LED indoor displays offer several models of displays to fit every situation.

Cafeteria's are a great place for our Big Dot display. This display is extremely bright, easy to read and program. Run announcements on the display during lunch to keep the student body up to date. The Big Dot comes complete with an

IR controller, hanging brackets and a one year warranty. This display will do eight different colors of Red/Yellow/Green and with a single line of 4" characters this display will cover up to 200' of viewing. Call today for more information.

## Affordable Full Color, Red & Amber Message Centers

Tired of juggling letters and changing your sign in the rain and the snow.

Introducing the NEW Galaxy 3400 Series message centers.

These message centers are available in either 20mm or 34mm LED pixel configurations.

Red, Amber and 3200 color are available in a variety of sizes.

Large, full color video displays are also available.
